Accreditation Committee
ILAC Resolution GA 16.20
As ISO Guide 34:2009 includes normative references to ISO/IEC 17025 and ISO 15189, the General Assembly resolves that accreditation of reference material producers is conducted in accordance with ISO Guide 34:2009 alone. This resolution rescinds ILAC resolution 8.12. In addition ILAC R6:07/2012 will be amended to reflect this decision.

Noting the results of the ISO ballot completed for ISO FDIS 15189 on 11 October 2012, the General Assembly agrees that by 1 March 2016, all references to ISO 15189 in accreditation certificates (as defined and described in ISO/IEC 17011), shall refer to the latest edition of ISO 15189. Compliance will be determined during normal surveillance or reassessment activities or as a separate activity.

At the end of the transition period, accreditation of a laboratory to ISO 15189:2007 will not be recognised under the ILAC Arrangement.

ILAC Resolution GA 16.22
Following an analysis of the current relevance of ILAC-G22:2004 Use of Proficiency Testing as a Tool for Accreditation in Testing, and the conclusion that other documents published on proficiency testing since 2004 provide more relevant information, the General Assembly agrees to the immediate withdrawal of ILAC-G22:2004.

Inspection Committee
ILAC Resolution GA 16.23
As agreed by the ILAC membership in the ballot ‘Rationale for the proposed Period for Transition to ISO/IEC 17020:2012’ conducted in July 2012, the transition period for the implementation of ISO/IEC 17020: 2012 Conformity assessment – Requirements for the operation of various types of inspection bodies performing inspection will expire on 1 March 2015. At this time, all accreditation certificates issued (as described and defined in ISO/IEC 17011) must reference the 2012 edition of ISO/IEC 17020. Compliance will be determined during normal surveillance or reassessment activities or as a separate activity.
