EA Resolution 2015 (35) 18

EA Resolution 2015 (35) 19
The General Assembly approves the terms of reference of the Horizontal Harmonisation Committee as revised in March 2015 and endorsed by the Executive Committee.
The EA General Assembly, taking into consideration that ISO/IEC 17000 A1.1, A2.1 and A2.2 identify selection (which includes sampling) as one of the three key functions of conformity assessment determines that accreditation of sampling as a stand-alone activity is appropriate and does fall within the remit of accreditation bodies.

The EA General Assembly determines that both ISO/IEC 17025 and ISO/IEC 17020 are appropriate as accreditation standards for sampling as a stand-alone activity. The fact that ISO/IEC 17025 contains a specific section on sampling, it lends itself very well to assessment of sampling as a stand-alone activity. The criteria included within this shall form the basis for all accreditation for sampling and hence if it is decided that ISO/IEC 17020 is the most appropriate standard then the requirements for sampling in ISO/IEC 17025 shall be included in the assessment.

The General Assembly, acting upon recommendation from the Horizontal Harmonisation Committee, recognizes that the use of the words “specific” and “supplementary” in clauses 2.5 and 3.7 of EA-1/22 A-AB: 2014 - EA Procedure and Criteria for the Evaluation of Conformity Assessment Schemes by EA Accreditation Body Members may cause confusion, since the intention in the document is to address any “additional” requirements going beyond ISO/IEC 17011 that are put on NABs, and therefore agrees that EA-1/22 is reworded so as to replace “specific” and “supplementary” by “additional” in the text under clauses 2.5 and 3.7.

The General Assembly recognises that Option B in standards on CABs (17000 series) is included to enable a CAB which operates a management system in accordance with ISO 9001 to use that management system to achieve the same result as they would by implementing the ISO 17xxx management system. NAB must check that during its assessments.

The General Assembly approves the 2016 Work Programme of the Certification Committee (Document EACC(15)15).

The General Assembly, acting upon recommendation of the Certification Committee, agrees that the EA CC starts a new work item to revise EA-6/03 M 2013: EA Document for Recognition of Verifiers under the EU ETS Directive for inclusion of “98 activities” and recommended witnessing approach as annex (Document EAAAB(15)03).
